

## **LOVE, AS THE LANGUAGE OF ALL SPECIES OF THIS UNIVERSE**

Poetry is the language of the heart, it starts flowing like the rhythm of the heart. William Wordsworth has called it as spontaneous overflow of powerful feelings.

It is a kind of outlet of our feelings, emotions and passions. Poetry flies on the viewless wings of imagination. Sri Aurobindo writes in his essay `The Essence of Poetry`, ``Pleasure , certainly, we expect from poetry as from all art, but the external sensible and even the inner imaginative pleasure are only first elements, refined in order to meet the highest requirement of the intelligence, the imagination and the ear, they have to be still farther heightened and in their nature raised beyond even in their own noblest levels.``

Our world is passing through most turbulent time. Everywhere there is chaos and darkness and in this environment poetry can be a ray of hope. I have given a thought to the title of our poetry volume : POETS FOR WORLD PEACE. We shall create peace through our imaginative sensibility. Although it is an uphill task though I am making my tireless efforts and this is our volume third. We have picked many flowers across the globe to spread fragrance of peace. We are all flowers of Almighty, different sizes, different colours, different seasons but our purpose is one - to spread fragrance to spread happiness. The aim of poetry writing should be propounding morals and to create such healthy atmosphere of serenity. We have different problems across the globe and it seems our prime concern to be more objective , to be more realistic to spread this cool breeze of imagination. I would like to thank Mr. Sahabudin Hadzalic to give me opportunity to write the foreword of this poetry volume. I have no words to thank him in this endeavour which is global. I also thank all the different flowers who spreaded their message of love and peace. I hope this poetry volume will be a mile Stone in the field of poetry. Love is the global language - love is the language of all species of this universe.

I hope we shall be able to spread love across the globe.
